Things students will need during the Induction & Orientation Programme

The learning experiences at SSLA will engage a student in the class as well as outside – in our communities, on trips to different places of historical importance, walks through the city and so on.

So it's important that you are appropriately dressed and comfortable:

- Raincoat / Windcheater
- Sweater / Jacket
- Umbrella
- Cap / Hat / Scarf
- Sturdy walking shoes
- Gum boots or shoes that will survive the rains
- Track pants
- Back pack
- Stationery: Notebooks / Pens / Pencils / Eraser / Ruler / Glue Stick / Crayons / Pen drive
- Torch
- Water Bottle
- First aid kit: all your regular medicines / prescriptions / list of allergies
- 2 stamp size photographs (3.5 cm x 4.5 cm).
- Hardcopy of the Undertaking signed by you and your parents

Learning is a process of assimilating data and combining it with your own research. At SSLA, self study and research is an essential component of assignments and assessments and we recommend you carry your own personal laptop / computer.

Students are of course welcome to use the college computers for their research and work, though they will have to abide by the college timings to access the facilities.
