Course Description:

Diversity Studies aims to enable students to develop and apply an alternate gaze, which can accommodate and celebrate difference in a positive way, appreciate the richness of society, and contribute to knowledge building. The course provides an opportunity for students to engage, appraise, break down, and examine, diverse communities, and accurately interpret their social and cultural experiences. The course also aims to instill in students an understanding, appreciation, and respect towards diverse cultures, histories, traditions, and modes of communication within 'glocal' communities.
