Course Description:

A basic understanding of law is a necessary requirement in today's day and age. With this idea in mind, this course on legal awareness has been created to acquaint students with the nuances of legal approaches to socio economic problems of contemporary India. The goal of the course is to introduce students to elementary yet essential legal concepts, to provide a background in understanding law as an instrument of social change, and to acquaint them with essential legal processes. At the end of the course, the students are expected to be conversant with essential legal concepts, to be able to comprehend and appreciate the idea of law as an instrument of social change, and to have an overview of essential legal processes.
