

Sub Committee for General Management

Name of Institution: Symbiosis School for Liberal Arts

Course Name: Core- Introduction to Research: RM – I

(UG/PG): UG

Credits: 4 (60 hours)

Level: 2

Course Description:

This course provides an introduction to research methodology, providing students with a framework for research methods, which are a foundation for their individual research projects and dissertations.

The main objective of this course is to explain the basic concepts of research methods, to identify different sources of information, and review appropriate literature.

In this course, students will learn fundamental concepts of research, such as literature review, identifying a research problem, formulating hypotheses, identifying types of research designs, quantitative and qualitative studies, and action research.
