

# SYMBIOSIS SCHOOL FOR LIBERAL ARTS

## Academic Outcomes

Demonstrate an understanding of the methods of inquiry and analysis both within and among traditional liberal arts and sciences disciplines (humanities, natural sciences, physical sciences, social sciences)

Combine core disciplinary training along with contemporary scholarship through research and analysis

Develop a strong academic foundation in interdisciplinary, multidisciplinary and transdisciplinary understanding of the world

Identify problems and contribute to effective problem solving using domain expertise

Enhance transferable skills such as robust and rigorous research capability, analytical skills, quantitative reasoning, critical thinking, effective communication and writing

Use domain knowledge and research skills to contribute towards a sustainable environment

Apply ethical principles to professional and academic life

## Social Responsibility

Demonstrate civic mindedness through communication and action

Contributes to the local, regional, national and global communities

Demonstrate sensitivity towards environment and promote sustainable development

Act with sensitivity, awareness, and social concern on issues of equity and social justice as effective citizens towards development and growth of socially and culturally marginalized groups

Assume ethical leadership roles for innovative problem solving within organizations and communities

## Employability

Effectively apply domain knowledge, research and communication skills in the professional space

Engage successfully in workspaces through teamwork, conflict resolution, problem solving, ethical behaviour, adaptability and leadership

Adapt to a dynamic multicultural and globally integrated economy

Utilize practical and experiential learning and ability to bring together information to create or identify effective sustainable solutions

## Personal / Individual development or outcomes

Have the capacity to situate local experiences in the global context

Identify and appreciate diverse and contrasting opinions and perspectives

Effectively communicate with diverse audiences to formulate and defend informed positions

To take action based on knowledge developed using varied tools in qualitative and quantitative research and analysis

Understand effective learning as an ongoing process for a successful professional and personal development

Demonstrate global competencies like teamwork, critical thinking, cross-cultural understanding and adaptability, problem solving and conflict resolution

Understand the importance of eco-literacy and sustainability in context of environment and energy

The successful Liberal Arts graduate has the skill, experience, flexibility of mind, and appreciation of diversity to explore academic pursuits
