

**Name of Institute:** Symbiosis School for Liberal Arts

**Course Name:** Information Technology Law

**(UG/PG):** UG, Semester 4

**Number of Credits:** 4 (60 Hrs)

**Level:** 2

**Course Description:**

The advent of computers has set in motion an inevitable conflict of law and technology. Law inherently tries to set boundaries and regulate conduct within such boundaries. It tries to regulate conduct through uniformity, consistency and stability. On the contrary technology is limitless and ever-changing. The subject of Cyber Law tries to capture, assess and make sense of the seeming incompatibility between Law and Technology. The students will be introduced to various forms of cybercrime like unauthorised access, hacking, digital signature frauds, one-time passwords frauds etc. They will also study the overlapping fields of Cyber Law and Intellectual Property. Although the focus of this course is the Indian perspective on cyber law, in certain essential areas the international perspective will also be discussed.
